

WedSites Case Study:

Give your clients an easy-to-use, dedicated online portal that makes you look professional, gives them a great experience, and helps you stand out from the crowd.

About *Element Events by Ramona*

With 15 years of experience, Events by Ramona is a leading Wedding and Events Company servicing Far North Queensland. Ramona Burki, Founder & Creative Director, together with her sister Marie, provide complete event management services.

The first time they realised the importance of a Wedding Website Management tool was during covid. They were seeking a budget-friendly way for clients to communicate ever-changing updates to their guests.

Since using WedSites it has been an entirely positive experience for her business and her couple.

One major fiscal benefit has been the ability to offer WedSites as an add-on product to couples.

In Ramona's own words ... "I can't fault anything."

The *world's first* all-in-one wedding planning platform

Ramona is a Standard user that's been using WedSites since March 2020, relying on it as a way to create wedding websites for her couples. Along with this feature, the Standard Plan includes guestlist database management, unlimited guests, collect online rsvps, custom rsvps, questionnaire form, paperless invitations, digital save the dates, custom email sending, multi-event rsvp management, multiple user accounts, white-glove customer support plus all of the Lite Plan inclusions.

"I have had feedback from my clients for whom I've created websites for that they are absolutely amazed and love it."

Ramona Burki, Founder & Creative Director,

Results that speak volumes

Client reported:

- The website features have exceeded expectations as have the lengths WedSites goes to answer questions or take feedback on board for future improvements
- User-friendly, non-tech-savvy couples can easily access features
- Couples reported high overall satisfaction with the finished website and added wedding planning tools
